PROFILE

I Am a highly motivated dynamic team player and a technology enthusiast with a high level of confidence, goal-oriented, cognizant of new technologies, committed towards successful completion of projects demonstrating substantial abilities and making an effective contribution from conception to implementation.

EDUCATION

- Foundation in Informatics Institute of Technology - 2022 (IIT).
- Diploma in English Language at International College of Business and Technology - 2022(ICBT).
- 3 months course in java, CSS, HTML(game developing) -2022(java institute).
- BSc(HONS) COMPUTER SCIENCE (IIT).

1st Year: -

1.Computer system fundamental.

2.Mathematics for computing.

3. Software development I .

4. Trends in computer .

5. Web design and development.

2nd Year: -

1. Database system.

2. Software development group project.

3. Machine learning and data mining .

4. Architect, Web Application Developer.

5. Object oriented programming.

- G. C. E. Ordinary Level (2021, Royal College Polonnaruwa):- 2A 5B 2C

EXPERINCE

PROJECTS: -

1) IIT projects

    Disease Detection Project: - Developed a data-driven system capable of analyzing medical inputs to identify potential diseases, enhancing diagnostic accuracy and supporting healthcare professionals.

    Inki,pinki,Poly Game in Python :- Designed and implemented a unique Python-based game, demonstrating expertise in logic programming and user engagement through an innovative game concept.

    ID Verification Projects: - Developed a secure ID verification system, incorporating authentication protocols to ensure identity accuracy and enhance digital security.

    Traffic System (using gates): - Engineered a traffic management system with automated features to improve efficiency and reduce congestion, reflecting problem-solving skills in urban infrastructure.

2) Individual projects

    Sinhala Card Game:– Created an interactive card game in Sinhala, combining cultural relevance with entertainment and showcasing multilingual programming skills.

    Doctor Channeling Website: – Built a responsive website for booking doctor appointments, streamlining patient access to healthcare, and enhancing user convenience.

SKILLS

- Positive attitude
- Time management and organizational skills
- Interested in learning new technologies and knowledge up to date
- Deadline neat
- Good leadership skill.
- Team work skill.
- Fast learning skill.

TOOLS & TECHNIQUES

- MYSQL
- CSS
- JAVA

- Spring Boot
- Angular
- Java Script

- React
- Nodejs
- Linux

EXTRA CURRICULAR

- A leader of school football team
- A leader of Yellow Bird cricket team
- A leader of Youth League fc club
- A member of school swimming team.
- A member of volleyball team.

ACHIVMENT

python Game Development Challenge – Recognized for developing an engaging game in Python, showcasing creativity and problem-solving skills in programming.

UI/UX Design Workshop – Completed a hands-on workshop focused on high-fidelity prototyping and user-centered design principles.
